SUPPLEMENTARY INFORMATION:

I. What action is the Agency taking?

In the *Federal Register* of April 10, 2019 (84 FR 14365) (FRL-9991-20), EPA published information pertaining to submissions in January 2019 under TSCA Section 5, including notice of receipt of a Premanufacture notice (PMN), Significant New Use Notice (SNUN) or Microbial Commercial Activity Notice (MCAN), including an amended notice or test information; an exemption application (Biotech exemption); an application for a test marketing exemption (TME), both pending and/or concluded; a notice of commencement (NOC) of manufacture (including import) for new chemical substances; and a periodic status report on new chemical substances that are currently under EPA review or have recently concluded review. Subsequent to that publication, a stakeholder noticed that the information in Table II of Unit III. appeared to

be identical to the information provided for December 2018 (see 84 FR 14368, April 10, 2019) (FRL-9990-59). EPA is hereby publishing the corrected information for January 2019 and providing an opportunity for public comments on this new information.

II. What is this Correction?

In Unit I.A., the first sentence incorrectly identified the period covered by the notice as "from 01/01/2019 to 12/31/2019," rather than just the month of January. Instead, it should have identified the period covered by the notice as "from 01/01/2019 to 01/31/2019."

In addition, the information in Table II of Unit III., which appears on page 14367, is corrected to read as follows:
